

SHRITHI.S

EDUCATION

Bachelor of Engineering (B.E.) – Electronics & Communication Engineering

Prince Shri Venkateshwara Padmavathy Engineering College

Expected Graduation: 2029

Relevant Interests: Quantum Computing, Internet of Things (IoT), Artificial Intelligence

PROJECTS & RESEARCH EXPERIENCE:

- **Google Cloud Skill Boost Badges**
Earned badges in cloud fundamentals and hands-on labs.
- **Smart Home Lighting System (IoT)**
Developed adaptive system using Python & sensor data
- **AI Agent Hackathon – Finalist**
Built AI automation system using prompt engineering & agent-based reasoning
- **EduFin – AI-assisted Financial Literacy**
Platform (Concept/Prototype):
 - Designed concept for AI-powered tools to help students manage education-related finances.
 - Researched user needs and potential fintech integrations.

PROFESSIONAL EXPERIENCE:

Social Media Manager – Fusion Seafood – Managed social campaigns; edited a reel gaining 16K+ views and improved engagement.

MARKETING Intern – Secure World (Cybersecurity Startup) – Promoted cybersecurity awareness through digital campaigns.

Student Researcher – Thinkers Lab – Conducted IoT prototyping, attended embedded systems workshops, and collaborated on hardware–software integration.

Student Researcher – Thinkers Lab – Conducted IoT prototyping, attended embedded systems workshops, and collaborated on hardware–software integration.

House Captain – Blue House – Led 100+ members to organize sports day; secured 2nd place overall demonstrating leadership and coordination.

OBJECTIVE/RESEARCH INTEREST:

To contribute to innovative research in Quantum Computing and IoT systems while building impactful AI-driven solutions through hands-on projects and collaborative learning.
